

QUALIFIED PRODUCTION FACILITIES

A “qualified production facility” means a building, or complex of buildings, building improvements, and associated back-lot facilities in which films are or are intended to be regularly produced and that contain at least one: (1) sound stage with contiguous floor space of at least seven thousand square feet and a ceiling height of no less than eighteen feet; or (2) standing set that includes at least one interior, and at least five exteriors, built or re-purposed for film production use on a continual basis and is located on at least fifty acres of contiguous space designated for film production use.
