

Dear 480,

I am writing this as a recommendation for Ron Wright as your costume designer/production assistant. I have worked with Ron for over two years now and been able to witness firsthand how great Ron is at styling our customers into frames. He always takes time and care to make sure everyone he helps is put into something that complements their features as well as their style. I think thanks to his many years experience of doing this he would be an amazing addition to your department.

Best,  
Destiny Jones
